```gherkin
Feature: Insert detailed description here

  Background: Insert background description here
    Given I sign in as "user1" #! if you feel the developer needs more information than add a dev comment

  #Comments should be added at the top of the scenario
  Scenario Outline: Insert Scenario description here: REQ-987
    When I select "<user_type>" from the "add users" dropdown on the "account" page
      And I click on "create account" on the "home" page
      And I fill in the following fields on the "create account" page:
      | field     | entered_value |
      | full name | John E Doe    |
      | username  | jedoe         |
      | password  | tropical1     |
      And I click on "submit" on the "create account" page
    Then I should be on the "My Account" Page
    Examples:
      | user_type      |
      | co-borrower    |
      | authotized user |
      | owner          |
```

```gherkin
Feature: Insert detailed description here

Background: Insert background description here
    Given I sign in as "user1" #! if you feel the developer needs more information than add a dev comment

    #Comments should be added at the top of the scenario
Scenario Outline: Insert Scenario description here: REQ-987
    When I select "<user_type>" from the "add users" dropdown on the "account" page
    And I click on "create account" on the "home" page
    And I fill in the following fields on the "create account" page:
      | field     | entered_value |
      | full name | John E Doe    |
      | username  | jedoe         |
      | password  | tropical1     |
    And I click on "submit" on the "create account" page
    Then I should be on the "My Account" Page
    Examples:
      | user_type       |
      | co-borrower     |
      | authotized user |
      | owner           |
```

Limit one of these keywords to 1 per feature at the top of the page

```gherkin
1   Feature: Insert detailed description here
2
3      Background: Insert background description here

 5
 6       #Comments should be added at the top of the scenario
 7     Scenario Outline: Insert Scenario description here: REQ-987
 8       When I select "<user_type>" from the "add users" dropdown on the "account" page
 9        And I click on "create account" on the "home" page
10        And I fill in the following fields on the "create account" page:
11         | field     | entered_value |
12         | full name | John E Doe    |
13         | username  | jedoe         |
14         | password  | tropical1     |
15        And I click on "submit" on the "create account" page
16       Then I should be on the "My Account" Page
17      Examples:
18        | user_type      |
19        | co-borrower    |
20        | authotized user |
21        | owner          |
```

A data table step
should indicate that it
is follwed by a table

Data table should
come after a :

```gherkin
1   Feature: Insert detailed description here
2
3     Background: Insert background description here
4       Given I sign in as "user1" #! if you feel the developer needs more information than add a dev comment
5
6     #Comments should be added at the top of the scenario
7     Scenario Outline: Insert Scenario description here: REQ-987
8       When I select "<user_type>" from the "add users" dropdown on the "account" page
9         And I click on "create account" on the "home" page
10        And I fill in the following fields on the "create account" page:
11          | field     | entered_value |
12          | full name | John E Doe    |
13          | username  | jedoe         |
14          | password  | tropical1     |
15        And I click on "submit" on the "create account" page
16       Then I should be on the "My Account" Page
17     Examples:
18       | user_type      |
19       | co-borrower    |
20       | authotized user |
21       | owner          |
```

Tables should be lined up using spaces not tabs

```gherkin
1  Feature: Insert detailed description here
2
3    Background: Insert background description here
4      Given I sign in as "user1" #! if you feel the developer needs more information than add a dev comment
5
6    #Comments should be added at the top of the scenario
7    Scenario Outline: Insert Scenario description here: REQ-987
8      When I select "<user_type>" from the "add users" dropdown on the "account" page
9        And I click on "create account" on the "home" page
10       And I fill in the following fields on the "create account" page:
11         | field     | entered_value |
12         | full name | John E Doe    |
13         | username  | jedoe         |
14         | password  | tropical1     |
15       And I click on "submit" on the "create account" page
16     Then I should be on the "My Account" Page
17   Examples:
18       | user_type      |
19       | co-borrower    |
20       | authotized user |
21       | owner          |
```

Example header matches
and is wrapped in < >

```gherkin
Feature: Insert detailed description here

  Background: Insert background description here
    Given I sign in as "user1" #! if you feel the developer needs more information than add a dev comment

  #Comments should be added at the top of the scenario
  Scenario Outline: Insert Scenario description here: REQ-987
    When I select "<user_type>" from the "add users" dropdown on the "account" page
    And I click on "create account" on the "home" page
    And I fill in the following fields on the "create account" page:
      | field     | entered_value |
      | full name | John E Doe    |
      | username  | jedoe         |
      | password  | tropical1     |
    And I click on "submit" on the "create account" page
    Then I should be on the "My Account" Page
  Examples:
    | user_type       |
    | co-borrower     |
    | authotized user |
    | owner           |
```

Header is lower snake-case

```gherkin
1   Feature: Insert detailed description here
2
3     Background: Insert background description here
4       Given I sign in as "user1" #! if you feel the developer needs more information than add a dev comment
5
6     #Comments should be added at the top of the scenario
7     Scenario Outline: Insert Scenario description here: REQ-987
8       When I select "<user_type>" from the "add users" dropdown on the "account" page
9       And I click on "create account" on the "home" page
10      And I fill in the following fields on the "create account" page:
11        | field     | entered_value |
12        | full name | John E Doe    |
13        | username  | jedoe        |
14        | password  | tropical1    |
15      And I click on "submit" on the "create account" page
16      Then I should be on the "My Account" Page
17      Examples:
18        | user_type      |
19        | co-borrower    |
20        | authotized user |
21        | owner          |
```

The same wording should be used in steps which do the same thing

```gherkin
 1    Feature: Insert detailed description here
 2
 3      Background: Insert background description here
 4        Given I sign in as "user1" #! if you feel the developer needs more information than add a dev comment
 5
 6      #Comments should be added at the top of the scenario
 7      Scenario Outline: Insert Scenario description here: REQ-987
 8        When I select "<user_type>" from the "add users" dropdown on the "account" page
 9        And I click on "create account" on the "home" page
10        And I fill in the following fields on the "create account" page:
11          | field     | entered_value |
12          | full name | John E Doe    |
13          | username  | jedoe         |
14          | password  | tropical1     |
15        And I click on "submit" on the "create account" page
16        Then I should be on the "My Account" Page
17      Examples:
18        | user_type      |
19        | co-borrower    |
20        | authotized user |
21        | owner          |
```

Parameters
Wrapped in quotes

```gherkin
Feature: Insert detailed description here

  Background: Insert background description here
    Given I sign in as "user1" #! if you feel the developer needs more information than add a dev comment

#Comments should be added at the top of the scenario
  Scenario Outline: GT_createAccount_1: Insert Scenario description here: REQ-987
    When I select "<user_type>" from the "add users" dropdown on the "account" page
      And I click on "create account" on the "home" Page
      And I fill in the following fields on the "create account" page:
        | field     | entered_value |
        | full name | John E Doe    |
        | username  | jedoe         |
        | password  | tropical1     |
      And I click on "submit" on the "create account" page
    Then I should be on the "My Account" Page
    Examples:
      | user_type      |
      | co-borrower    |
      | authotized user |
      | owner          |
```

Scenarios should be numbered using
ProjectName_featureName_scenarioNumber

```gherkin
Feature: Insert detailed description here

  Background: Insert background description here
    Given I sign in as "user1" #! if you feel the developer needs more information than add a dev comment

  #Comments should be added at the top of the scenario
  Scenario Outline: GT_createAccount_1: Insert Scenario description here: REQ-987
    When I select "<user_type>" from the "add users" dropdown on the "account" page
    And I click on "create account" on the "home" Page
    And I fill in the following fields on the "create account" page:
     | field     | entered_value |
     | full name | John E Doe    |
     | username  | jedoe         |
     | password  | tropical1     |
    And I click on "submit" on the "create account" page
    Then I should be on the "My Account" Page
    Examples:
     | user_type       |
     | co-borrower     |
     | authotized user |
     | owner           |
```
